THE MINIDOKA

Vol. III No. 13 HUNT

COLLE

O God, the protector of all that
without whom nothing is strong, nothi
Increase and multiply upon us thy mercy; t
being our ruler and guide, we may so pass
things temporal, that we finally lose n
things e ternal. Grant this, O heavenly Fat
the sake of Jesus Christ our Lord. Amen.

We beseech thee, O Lord, bestow upon us t
vants the gift of thy heavenly grace; that
salvation began by the Childbearingof the bl
Virgin, so this devout solemnity of her Visi
may afford us an increase of p ace. Throu
son Jesus Christ our Lord, who with thee, i
unity of the Holy Spirit, live th and reign
world without end. Amen.

IN THE MAIL BAG

The Cathedral Church of St. Stephen, The Rev. H. Thomas Carson, . Harrisburg, Pennsylvania. . . . I attended the graduation of my son at the Wooster School, in Danbury, Conn., just recently, and had the pleasure of meeting Sam Ishibashi. He told me that Fr Dai had visited the school in Danbury a short time before. My son also spoke of the visit of Fr. Dai and how much he enjoyed meeting him.

130 S. 6th East, Missoula, Montana, Shig. Uchida. . . I have finally completed my first quarter. It was a pretty s tiff exam that we had. I am now enrolled in summer school and taking four hours of Physics. It's a pretty difficult course but it was my advisor's idea so I took his advice. I am now living at the church. Fr. Bennett arranged so I could work and stay there. .. Roderick Hara has finally entered the Montana State University and is doing fine. The professors here are very friendly to us and makes our daily activities here very pleasant.

Miss Suye Ochi....Today is my last day here at Asilomar YWCA Conference. It has been a wonderful, experience. It was es pecially nice to see my Seattle friends. The conference grounds are lovely and right by the ocean. I am leaving for San Francis co. We visited Monterey and Carmel.

Wm. T. Sato, Nashotah, Wisconsin.....I am very happy to t ell you that my daughter Mabel has a job at the Roger Memorial Hospital which is only one mile away from Nashot ah House. Mabel will probably start work on the12 th but will not have to work as long as the others are adults. She has a very nice room to herself. She is very happy to be near me, which means we could see each other e very day, sometimes she comes over two or three times a day and I am als o as happy as she.

Mr. H. H. Okuda, Amache, Colorado...Mrs. Okuda and I have been granted short term leave s(two weeks)to attend the graduation at Oberlin(Kenji's School) and visit Chicago. I am anticipating the pleasure of meeting my old friends and to see how they are getting along.

Miss Alice Togo, Vassar College, Poughkeepsie, New York
I've managed to get myself a job at the Albany Public Library for the months of July and August. I'll be getting $90.00 a month and will be living at the Y.W.C.A. which is quite inexpensive and sounds quite nice. I've been corresponding with the director of the library and she has helped me a lot by investigating this question of living expenses. The whole setup seems quite attractive. I'm living at the Palmer House- where we do our own cooking and meal planning and get a deduction on our room and board fees. Palmer is a wonderful house. Just like a regular private home, not at all like a dormitory. Just 22 girls so we have quite a close-knit group. Technically, we are off campus - right on the edge of campus - right in the middle of a groupof faculty homes. I tried out for the choir this term and I was somewhat surprised to find myself accepted. I've sung in about six Sunday Chapels. It's wonderful! Some experience too, to be able to work with a group like this.

Johnny Okamoto, United States Army....Just a short note before taps to let you know that I'm getting along swell. We're going into the third week of this army training and am gradually getting use to this tough grind. The weather is hot and sultry and some of us really sweat a lot but make up for that by taking salt pills during meals. Miss all the folks back in camp and think about them quite often.

Dr. Paul S. Shigaya, Spokane, Washington.....Though we did encounter miserable rainstorm and had a flat tire on our way to Spokane, we arrived safely. Our warmest greetings to all our friends at Hunt.

Ruth Tahara, Wm. Smith College, Geneva, New York.....
The other morning I got a job at the New York Experiment Station working in the Chemistry department under the Frozen Food Department. I shall start for the 20th of this month and hope to work until the latter part of October. since school does not start until November Today, at last after two whole months of waiting, I finally got a letter from Willie. He writes from Italy and from what I gather he must be around Mt. Vesuvius.
